No subscription or annual fees. Free updates.

CEREC Doctors special:  
Enter "CDQ4" on registration screen  
and receive a \$25 iTunes Gift Card.  
Offer expires 12/31/2010.

"I am a firm believer in effective communication with my patients. I have been using the DDS GP application for 2 months now, and for the first time in 25 years of practice I feel that I am connecting with the most skeptic patients and closing the gap."

"This application is highly recommended!"

James Mahooti, DDS

"DDS GP is the best patient education tool that I've seen yet. The interactive approach with these demos not only impresses the patients, but also makes education fun for my staff. The minute I incorporated this into my practice, I noticed a difference in case acceptance."

"I recommend DDS GP 100%."

Mike Skramstad, DDS
